

## 215 Coolidge Avenue – Contributing

Located at 215 Coolidge Avenue is a one- and one-half story, gabled ell Craftsman dwelling built ca. 1930. The house has a roof of asphalt shingles, a continuous stone-faced concrete foundation, an exterior brick chimney, and a wood shingle exterior. On the main (N) elevation is a small inset entry bay with a wood shingle-sided square post and a closed railing with a wood cap. Wood baluster railings line the wood steps to the fieldstone walkway. The main entrance retains its original, Craftsman-style, four-light glass and wood door. Windows are replacement, double hung vinyl sash with false muntin bars for a three-over-one-vertical-light effect. Windows are grouped in pairs, triples and sets of four. The house has exposed roof rafters at the eaves. At the roofline of the main façade is a gabled roof dormer with a triple set of windows and exposed roof rafters.

To the rear of the dwelling is an original, two-bay garage with a clipped gable roof of asphalt shingles, a weatherboard exterior and two, ca. 1990, overhead track metal panel doors. **Contributing**
