

306 Dundee Avenue – Noncontributing

At this location is a two-story gable front dwelling built ca. 1915 and either totally replaced or drastically altered ca. 1985 with the addition of vinyl siding, stone veneer and one-over-one double hung vinyl sash windows. On the main (E) façade is a bay window with a hipped roof, three, one-over-one double hung vinyl sash windows and a vinyl base. The main entrance has a ca. 1990, six-panel metal door with a storm door above which is a hipped roof canopy. A stone veneer, poured concrete stoops leads to the main entry.
