

240 W. Lake Street – Contributing

ARC 03-13 – construction of a rear addition as well as demolition of the existing garage and construction of a new four-car garage

Located at 240 W. Lake Street is a two-story asymmetrical Queen Anne-influenced Folk dwelling built ca. 1910. The dwelling has a hipped asphalt shingle roof, an interior brick chimney, a continuous stone foundation and an exterior of weatherboard siding. On the main (S) and east elevations is a wraparound porch with Tuscan wood columns and a square baluster wood railing. The porch has a corner gable entrance with a pediment and decorative wood cutout. The main entrance retains its original etched glass door with wood panels. A large single-light window on the main façade has a large rectangular stained glass transom and interior wooden louvered shutters. On the east elevation, the dwelling has an original, two-story projecting polygonal bay with a hipped roof. On the roofline of the main façade is a hipped roof dormer with paired, two-light attic windows. A secondary entrance on the main façade leads from the polygonal bay to the porch and has an identical door as the main entrance. Windows are original, one-over-one double hung wood sash. At the eaves is a wide beltcourse of scalloped panels.

Located to the rear of the dwelling is a ca. 1960, frame garage. **Noncontributing**
