31. SKYLIGHTS

The addition of skylights can make the use of upper floor space or attic space more practical. The installation of skylights is appropriate as long as they are placed on rear roof lines, behind gables or dormers, or otherwise not visible from the street. Skylights that are flush with the roofline or lay flat are appropriate, those with convex or "bubble" designs are not appropriate.

A. are permitted on rear roof section where not visible from the street.

B. should be flat or flush with the roofline, not convex or "bubble" designs.
