Re: Letter Agreement for Professional Services for
Downtown Streetscape Improvements
Village of Barrington, Illinois

Dear Marie:

Kimley-Horn and Associates, Inc. ("Kimley-Horn" or "Consultant") is pleased to submit this Letter Agreement (the "Agreement") to Village of Barrington ("Client" or "Village") for preparing survey, design concepts, and construction drawings for the Downtown Streetscape Improvements project in Barrington, Illinois.

Project Understanding

The Village of Barrington plans to enhance its downtown streetscape through the selection and implementation of various new hardscape and landscape features. The proposed project will be completed over two phases. The limits of Phase 1 are S. Cook St from Park Ave to E. Lake St, and E. Station St from S. Hough St to S. Grove St. The limits of Phase 2 are Hough St from the Union Pacific right-of-way to Lincoln Ave, and Main St from Applebee St to S. Spring St. A visual representation of the project area is attached as **Exhibit A**. Kimley-Horn will prepare a limited topographic survey, concept drawings, construction drawings and specifications, and provide bidding assistance for the proposed streetscape improvements.

The project will require the evaluation and design of accessibility improvements following the Public Right-of-Way Accessibility Guidelines (PROWAG) adopted by the U.S. General Services Administration. An erosion control plan will be included in the construction drawings; however, no separate Storm Water Pollution Prevention Plan (SWPPP) will be prepared. Water and sanitary utility work will be limited, and is not expected to require MWRDGC or Illinois Environmental Protection Agency (IEPA) permits. S. Cook St and E. Station St are under the jurisdiction of the Village of Barrington. Hough St and Main St are under the jurisdiction of the Illinois Department of Transportation (IDOT). The proposed improvements on Hough St and Main St will require an IDOT permit. Accessible routes will be reviewed, and if required redesigned, in the areas with topographic survey. The scope of work assumes that IDOT will not require full topographic survey within state right-of-way.

The project is expected to be locally funded and will not require processing through IDOT for motor fuel tax or federal funds.

Scope of Services

Kimley-Horn will provide the services specifically set forth below.

Task 1 – Project Coordination and Meetings

Kimley-Horn will perform project management and administration, including staff and resource scheduling, progress monitoring, monthly invoices, and progress reports.

Project Kickoff Meeting. Kimley-Horn will lead an in-person meeting with the Village to initiate the project and to discuss project goals, design criteria, and project schedule.

Progress Meetings. Kimley-Horn will be available to attend meetings with the project team, elected officials, and Village staff. The task budget assumes attendance at two in-person meetings and two virtual meetings, each up to one hour in length, during the design phase.

Kimley-Horn will conduct routine correspondence throughout the duration of the project, including emails, phone calls, ad-hoc video meetings, etc. on an as-need basis. The task budget assumes a five-month project schedule.

Task 2 – Sidewalk Field Review

Kimley-Horn will perform a sidewalk field review on the Phase 1 and Phase 2 project areas prior to starting **Task 3**. This task will identify locations, in addition to the locations already identified in **Task 3,** that will be challenging to construct per PROWAG without topographic survey and detailed grading design. The determination will be based on measuring the pedestrian access route running slope and cross slope with a 4-ft digital level (accuracy ±0.35%). A contingency budget for surveying and mapping efforts is included under Additional Services.

Task 3 – Surveying and Mapping

Topographic and Curb Ramp Survey

Kimley-Horn to collect field data for the purpose of determining compliance with PROWAG standards and per the IDOT accessibility requirements within the project limits shown in **Exhibit A**. Topographic survey shots will be taken at approximate 25' intervals to determine linear and vertical features, and where appropriate, to pick up information that may include building entries, sidewalks, back of curbs, curb ramps, stormwater structures, utility structures, permanent landscape features, and permanent structures in the sidewalk streetscape limits. Utility inverts including traffic control services for obtaining utility inverts (if required) is not included and would be considered an Additional Service.

Full curb ramp topo includes detail of specified quadrant, including sidewalk joints, visible utility structures, traffic signal and light pole bases within 5 feet of ramp area, vaults, detectable warning size and type, push button height, manhole structures including invert information for pipe locations, sizes and depths within 5 feet of ramp and cross section path across the intersection, pavement shots approximately 5 feet from edge around radii of quadrant and other pertinent items for determining compliance with PROWAG requirements.

The surveyor will secure sufficient topographic information of the subject property as outlined in the yellow areas on **Exhibit A**.

Streetscape Survey

Sidewalk streetscape survey shots will be taken at approximate 50' intervals to determine linear features, and where appropriate, to pick up information that may include building entries, sidewalks, back of curbs, curb ramps, stormwater structures, utility structures, permanent landscape features, streetlights and permanent structures in the sidewalk streetscape limits. Utility inverts including traffic control services for obtaining utility inverts (if required) is not included and would be considered an Additional Service.

The surveyor will secure sufficient topographic information of the subject property as outlined and shaded in the red (Phase 1) area and black (Phase 2) area on **Exhibit A**.

Task 4 – Concept Site Plan

Kimley-Horn will review existing conditions in the field, as well as review aerial, topographic, and utility survey of the area. Kimley-Horn will prepare initial alternate concepts for the following specific unique conditions as well as prototypical segments of sidewalk:

- Standard Conditions
  - Greater than 12' width sidewalk, with street tree
  - Less than 12' width sidewalk
  - Typical drive or alley crossing
- Unique Conditions
  - North side of Main St adjacent to Jewel parking lot
  - Northeast corner of Main St and Hough St (plaza with gazebo)
  - Southwest corner of Main St and Hough St (adjacent to Starbucks)
  - North side of Main St adjacent to 232 E. Main St (grade issues)
  - Southeast corner of Main St and railroad tracks (electronic messaging sign and plaza)
  - Intersection of Station St and Cook St (corner plantings)
  - Garage entrance at 100 E. Station St (grade issues)
  - Curb cut on Station St between Barrington Bank and Trust and 115 E. Station St (grade issues)
  - Dumpster screening at northeast corner of Station St and Cook St

For each location, Kimley-Horn will develop up to two conceptual designs. These designs will include dimensions, material recommendations, and proposed grades (where applicable). Kimley-Horn will conduct a review of the concepts with Village staff to collect input. Based on the feedback collected, Kimley-Horn will prepare a preferred option for each condition and consolidate them into an overall Conceptual Site Plan.

Kimley-Horn will develop an Opinion of Probable Construction Costs (OPCC). Final direction for the design will be based on review and approval by the Village.

One round of revisions based on Village comments is provided under this task. Additional revisions will be completed as an Additional Service.

Task 5 – Landscape Architecture Design

Kimley-Horn will prepare one pre-final and one construction document submittal of landscape/hardscape plans and layouts based on the approved concept site plan developed in the previous task for each phase of the project. In preparing these plans, Kimley-Horn will work with the Village to select materials and refine design of specialty elements and provide a site furnishing and materials board, as well as product samples where appropriate, to the Village for review and selection.

Kimley-Horn will prepare landscape and hardscape plans, to include:

1. *Landscape Plan* – Indicating the location of existing and proposed improvements. Identification of proposed plant material locations, species, quantities, and installed sizes. Location and treatment of all ground surfaces. Include detail landscape plans of specific areas as needed.
2. *Landscape Materials List*
3. *Landscape Notes*
4. *Plant Material Installation Details*
5. *Hardscape Plan* – Indicating the hardscape design and layout. Locations of site furnishings and lighting. Detail callouts.
6. Photometric Plan – Coordinate with the lighting representative to have a photometric plan prepared for the site.
7. *Materials and Site Furnishing Schedule*
8. *Construction Details* – Product cut sheets and manufacturer details. Details including specialty paving, benches, trash enclosures, landscape planters.

Two rounds of revisions in total based on Village comments is included under this task. Additional revisions will be completed as an Additional Service. Significant site plan changes will be considered as an Additional Service.

Kimley-Horn will prepare an OPCC concurrent with the construction document submittal.

Task 6 – Civil Design

Kimley-Horn will prepare one pre-final and one construction document submittal of design drawings based on the approved concept site plan for each phase of the project. The plans shall be at an appropriate engineering scale to depict the proposed site improvements in sufficient detail. The drawings will generally consist of the following sheets and their respective contents:

1. *Cover Sheet*
2. *Summary of Quantities*
3. *Typical Sections* – Showing one typical section for each street.
4. *Demolition/Erosion Control Plan* – Showing surface and subsurface facilities scheduled for demolition, and proposed temporary measures and best management practices (to be

installed by the contractor) to impede sediment from being carried to adjacent properties during construction.

5. *Site Plan* - Showing sidewalk, curb ramp, and signage and striping improvements.
6. *Grading / Drainage* – In locations where topographic survey was completed, Kimley-Horn will show existing and proposed contours as well as proposed spot elevations to aid the contractor in performing earth-moving and flatwork. Grading design is limited to the area between the existing curb and existing grade at the right-of-way or building face. Upgrading accessible routes into private businesses (i.e., front doors) is not included.
7. *Accessibility Grading Detail* – Showing detailed grading at curb ramps where curb ramp surveys were completed in **Task 3**.
8. *Details* – Showing the paving, storm sewer, and erosion control details required for civil site construction or via references to state, county, or village standard details.

Two rounds of revisions in total based on Village comments is included under this task. Additional revisions will be completed as an Additional Service. Significant site plan changes will be considered as an Additional Service.

Drainage design will be limited to surface runoff, and does not include storm sewer system modifications, other than structure adjustments to meet proposed grades.

All analysis, design, and coordination within this task is for on-site infrastructure only, as identified in the Project Understanding section, and does not include any analysis, design, and/or approvals for off-site improvements that may be required for this project. For this task, it is assumed that all utility and road infrastructure, sufficient for the project, is available for connection at the project boundary.

Kimley-Horn will prepare technical specifications referencing applicable standard specifications from the Illinois Department of Transportation, Standard Specifications for Water and Sewer Construction in Illinois, and prepare project specific special provisions as necessary to bid the proposed improvements shown in the Construction Drawings.

Kimley-Horn will prepare an OPCC concurrent with the construction document submittal.

Task 7 – Traffic Management Plan

Kimley-Horn will develop a traffic management plan (TMP) for implementation during construction of the proposed improvements. The traffic management plan will be limited to:

- Maintenance of pedestrian traffic (MOT) plans for up to four phases of construction. This will include routing and detours for pedestrian traffic. The MOT plans will be included in the final engineering plans.
- A written narrative of the TMP for use in discussions with local business owners, elected officials, and other stakeholders.
- Kimley-Horn will attend up to four meetings with local stakeholders, as identified by the Village.
- Routing exhibits to be posted on the project website and within the project area during construction. These exhibits will be suitable for the public to understand the construction and

revised routing. The exhibits will include construction zones, necessary detours, and temporary parking information.

Task 8 – Site Lighting/Power

Kimley-Horn will prepare electrical construction drawings and specifications indicating power provisions for new planter receptacles associated proposed streetscape improvements. It is assumed that the existing electrical service will be utilized, and the Client will assist with coordination with the utility company. Planter receptacle locations will be coordinated with landscape architecture plans.

Two rounds of revisions in total based on Village comments is included under this task. Additional revisions will be completed as an Additional Service. Significant site plan changes will be considered an Additional Service.

Task 9 – Permit Assistance

Kimley-Horn will assist the Village in obtaining approvals from the permitting agencies having jurisdiction over the project as specifically detailed below. This Agreement assumes the Village will pay all required submittal, application, and permit fees. The Village shall provide all requested permitting materials prepared by the Village or others and shall sign or obtain signatures on all permit forms, as requested by Kimley-Horn, in a timely manner. The task budget assumes 30 hours of effort for this task. Should additional effort be required, Kimley-Horn will provide this effort as an Additional Service.

Kimley-Horn will assist with the following, as applicable:

1. IDOT Highway Permit through Bureau of Traffic for the proposed right-of-way modifications. Prepare application, submit for review, and follow up with IDOT to help advance the permit review process.

Task 10 – Bidding Assistance

During the construction procurement process, Kimley-Horn will:

- Assemble plans and specifications completed under previous tasks into construction documents for bidding by the Village.
- Provide information, responses, technical descriptions, or assistance requested by the Village during the bidding process, as related to the final design documents.
- Respond to reasonable and appropriate bidder, or prospective subcontractor, requests for information made in accordance with the final design documents and issue necessary clarifications and interpretations. Any orders authorizing variations from the construction contract documents will be made only by the Village.
- Evaluate the acceptability of substitute or "or-equal/equivalent" materials and equipment proposed by bidder, or prospective subcontractor, in accordance with the construction contract documents.

The task budget assumes one bid package prepared by Kimley-Horn for each phase and template front-end documents will be provided by the Village. Should additional bid packages be required, Kimley-Horn will provide this effort as an Additional Service.

Kimley-Horn shall have no liability whatsoever for any costs arising out of the Client's decision to obtain bids or proceed with construction before Kimley-Horn has issued final, fully approved plans and specifications. The Client acknowledges that all preliminary plans are subject to substantial revision until plans are fully approved and all permits obtained.

13) **Certifications.** All requests for Kimley-Horn to execute certificates, lender consents, or other third-party reliance letters must be submitted to Kimley-Horn at least 14 days prior to the requested date of execution. Kimley-Horn shall not be required to execute certificates, consents, or third-party reliance letters that are inaccurate, that relate to facts of which Kimley-Horn does not have actual knowledge, or that would cause Kimley-Horn to violate applicable rules of professional responsibility.

14) **Dispute Resolution.** All claims arising out of this Agreement or its breach shall be submitted first to mediation in accordance with the American Arbitration Association as a condition precedent to litigation. Any mediation or civil action by Client must be commenced within one year of the accrual of the cause of action asserted but in no event later than allowed by applicable statutes.

15) **Hazardous Substances and Conditions.** Kimley-Horn shall not be a custodian, transporter, handler, arranger, contractor, or remediator with respect to hazardous substances and conditions. Kimley-Horn's services will be limited to analysis, recommendations, and reporting, including, when agreed to, plans and specifications for isolation, removal, or remediation. Kimley-Horn will notify the Client of unanticipated hazardous substances or conditions of which Kimley-Horn actually becomes aware. Kimley-Horn may stop affected portions of its services until the hazardous substance or condition is eliminated.

16) **Construction Phase Services.**
   a. If Kimley-Horn prepares construction documents and Kimley-Horn is not retained to make periodic site visits, the Client assumes all responsibility for interpretation of the documents and for construction observation, and the Client waives any claims against Kimley-Horn in any way connected thereto.
   b. Kimley-Horn shall have no responsibility for any contractor's means, methods, techniques, equipment choice and usage, equipment maintenance and inspection, sequence, schedule, safety programs, or safety practices, nor shall Kimley-Horn have any authority or responsibility to stop or direct the work of any contractor. Kimley-Horn's visits will be for the purpose of observing construction and reporting to the Client whether the contractors' work generally conforms to the construction documents prepared by Kimley-Horn. Kimley-Horn neither guarantees the performance of contractors, nor assumes responsibility for any contractor's failure to perform its work in accordance with the contract documents.
   c. Kimley-Horn is not responsible for any duties assigned to it in the construction contract that are not expressly provided for in this Agreement. The Client agrees that each contract with any contractor shall state that the contractor shall be solely responsible for job site safety and its means and methods; that the contractor shall indemnify the Client and Kimley-Horn for all claims and liability arising out of job site accidents; and that the Client and Kimley-Horn shall be made additional insureds under the contractor's general liability insurance policy.

17) **No Third-Party Beneficiaries; Assignment and Subcontracting.** This Agreement gives no rights or benefits to anyone other than the Client and Kimley-Horn, and all duties and responsibilities undertaken pursuant to this Agreement will be for the sole benefit of the Client and Kimley-Horn. The Client shall not assign or transfer any rights under or interest in this Agreement, or any claim arising out of the performance

of services by Kimley-Horn, without the written consent of Kimley-Horn. Kimley-Horn reserves the right to augment its staff with subconsultants as it deems appropriate due to project logistics, schedules, or market conditions. If Kimley-Horn exercises this right, Kimley-Horn will maintain the agreed-upon billing rates for services identified in the contract, regardless of whether the services are provided by in-house employees, contract employees, or independent subconsultants.

18) **Confidentiality.** The Client consents to the use and dissemination by Kimley-Horn of photographs of the project and to the use by Kimley-Horn of facts, data and information obtained by Kimley-Horn in the performance of its services. If, however, any facts, data or information are specifically identified in writing by the Client as confidential, Kimley-Horn shall use reasonable care to maintain the confidentiality of that material.

19) **Miscellaneous Provisions.** This Agreement is to be governed by the law of the State where the Project is located. This Agreement contains the entire and fully integrated agreement between the parties and supersedes all prior and contemporaneous negotiations, representations, agreements, or understandings, whether written or oral. Except as provided in Section 1, this Agreement can be supplemented or amended only by a written document executed by both parties. Any conflicting or additional terms on any purchase order issued by the Client shall be void and are hereby expressly rejected by Kimley-Horn. If Client requires Kimley-Horn to register with or use an online vendor portal for payment or any other purpose, any terms included in the registration or use of the online vendor portal that are inconsistent or in addition to these terms shall be void and shall have no effect on Kimley-Horn or this Agreement. Any provision in this Agreement that is unenforceable shall be ineffective to the extent of such unenforceability without invalidating the remaining provisions. The non-enforcement of any provision by either party shall not constitute a waiver of that provision nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

The Consultant and the Village both acknowledge and agree that the Village complies with the Act, which states that any bills approved for payment shall be paid within thirty (30) days after date of approval of the Consultant's invoice by the Corporate Authorities of the Village, and the parties both also agree that any payment(s) due to the Consultant for Services rendered or to be rendered to the Village shall be paid by the Village pursuant to the provisions of the Act. Notwithstanding any other provisions of any Contract Document, the Village shall not, in any manner, be considered to have accepted the Services, or any part thereof, or to have waived any claim related to such Services by making a final payment or by making any progress payment of any amount, where the Village determines that such Services, or part thereof, are defective, deficient, or not in conformance with the Contract Documents.

3. Contract Documents: The term "Contract" or "Contract Documents" means and includes, but is not limited to, the following, which are each attached hereto and thereby made a part hereof:

If the Consultant fails to complete the Services by the Completion Date, the Village shall thereafter have the right to have the Services completed by another independent contractor, and in such event, the Village shall have the right to deduct the cost of such completion so incurred by the Village from payments otherwise due to the Consultant for the Services and/or the right to recover any excess cost of completion from the Consultant to the extent that the total cost incurred by the Village for the completion of the Services which are the subject of the Contract Documents exceeds the Contract Price.

6. Nonassignability. The Consultant shall not assign this Contract, or any part thereof, to any other person, firm, or corporation without the prior written consent of the Village, which shall not be unreasonable withheld, and in no case shall such consent relieve the Consultant or its surety from the obligations herein entered into by the same or change the terms of this Contract.

Payment to the Consultant shall not be due on rejected Services until and unless fully corrected and/or replaced by the Consultant as determined by the Village. All Services provided by the Consultant shall be performed in compliance with this Addendum and the other Contract Documents as determined solely by the Village, and this Addendum shall control.
