Since 2006 Pipe View has provided pipeline inspections based on engineering principals with real time communication. Over the last 18 seasons Pipe View America has been successfully completing sewer inspections and documentation for municipalities and utility owners across the country. We have offices in Chicago, IL, Azle, TX, Greeley, CO, and Columbia, MO. Our NASSCO Certified teams utilize the most current equipment for our mainline, lateral launch, push camera, hydro-excavation, sewer repair, sewer cleaning, and live gas main inspection operations. We have developed techniques that allow us to access complicated or blocked sewers in order to clear our clients of cross-bore liability.

We provide our clients with GIS output that is customizable to directly upload into their system. This has also provided daily progress updates to inspectors and managers. Inspectors also have direct access to completed videos and reports on-line, typically within 48 hours.

Pipe View America, nor any employees, have any conflict of interests in working with the city. All information provided is true to the best of our knowledge. We look forward to the opportunity work with the Village of Barrington and begin a successful relationship.
